EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Johnson on 11/9/07.

The application has been amended as follows: on line 9 of claim 9, "second" has been replaced by -- rearward --.

Reasons for Allowance

Claims 2-6, 9-10 and 12-26 allowed.

As to claims 2-6 and 26, the prior of record, taken alone or in combination, fails to disclose or render obvious a method for measuring the concentration level of a preselected gas comprising the steps of splitting said light component into three components, passing a first component to a first photo detector for proving a first electrical signal indicative of the intensity of said light beam, passing a second component of said light beam multiple times through said confined testing area unto a second photo detector , passing a third component of said light beam over a reduced length path unto a third photodetector and employing the three signals to determine the concentration level of said preselected gas, in combination with the rest of the limitations of claim 26.

As to claim 9-10 and 12-25, the prior of record, taken alone or in combination, fails to disclose or render obvious a cell for use in measuring the concentration of a preselected gas in a gas sample including a third photodetector positioned outwardly of said second annular mirror to receive a portion of said light beam that passes through said second annular mirror after said light beam has traveled a reduced length path through said annular absorption area whereby a concentration measurement corresponding to a higher concentration level can be measured, in combination with the rest of the limitations of claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda H Merlino whose telephone number is 571-272-2421. The examiner can normally be reached on Monday and Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J Toatley, Jr. can be reached on 571-272-2800 ext 77. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
